# Topic worksheet

## Read and make.

### Wind energy

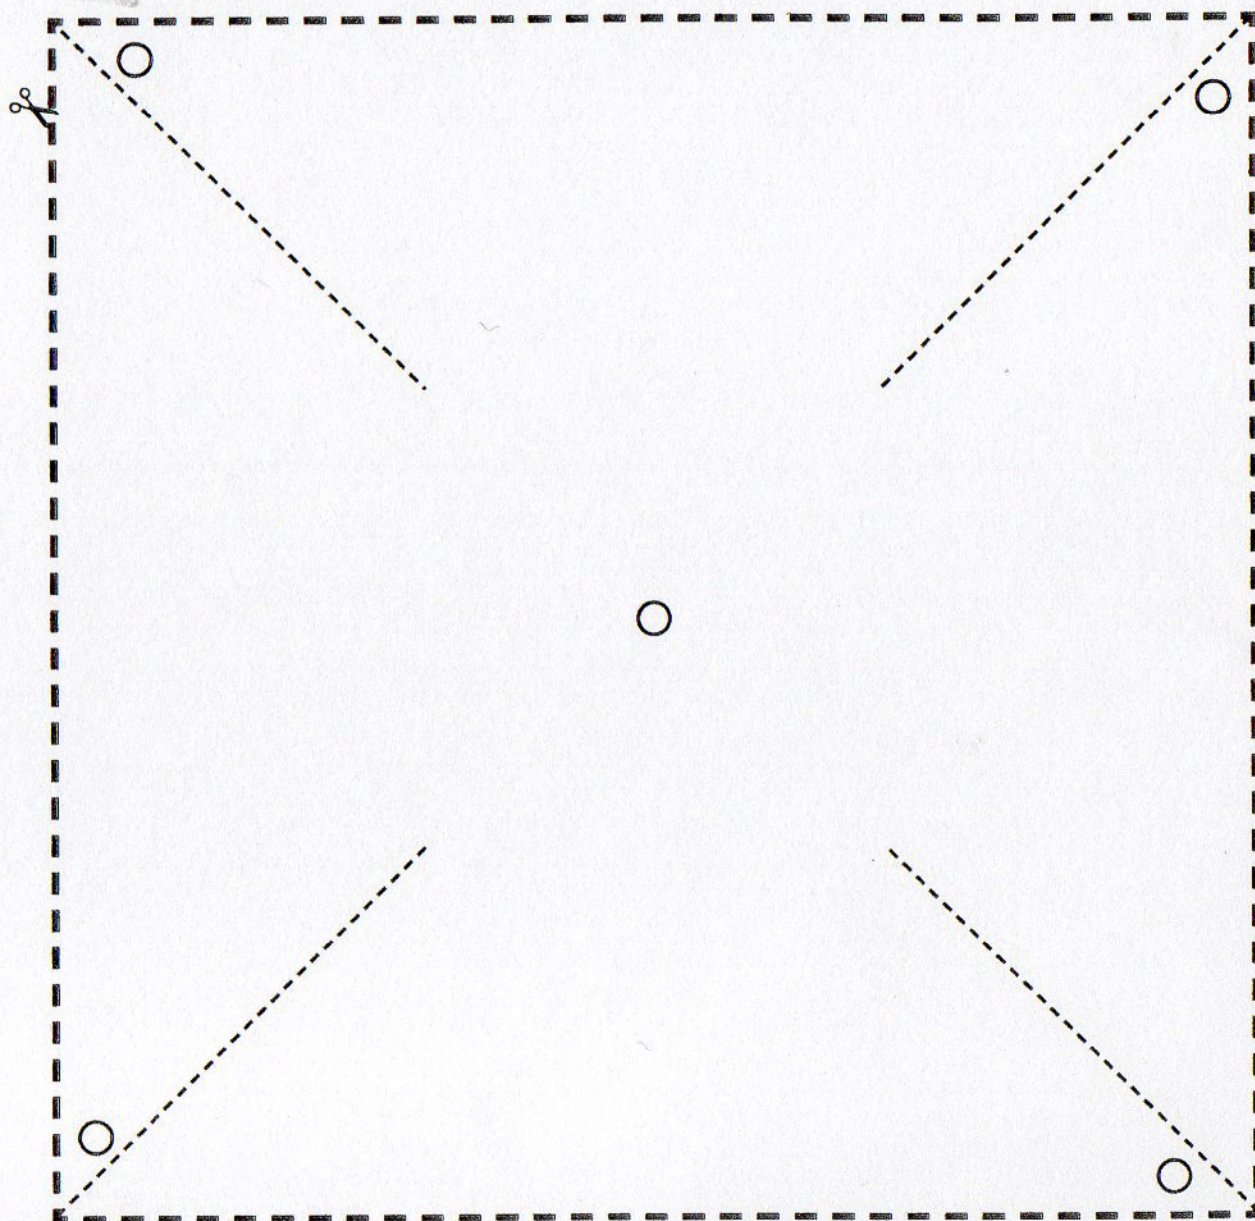

Wind is air that is moving. Wind turbines use the wind to give us electricity. They give us one percent of the electricity in the world. In Spain, nine percent of the electricity comes from wind turbines. On a wind farm there are a lot of wind turbines. There is a wind farm in Texas, North America, with 421 wind turbines.

Wind is a clean fuel and there is no pollution. The problem is that some people say that wind turbines are ugly.
